U. N. PLANES PATROL PALESTINE'S COAST

Transports Lent by U. S. Scout for Truce Violations—Arab Chiefs, Bernadotte Confer

CAIRO, Egypt, June 15 (AP) — Count Folke Bernadotte, United Nations Mediator, said today United Nations truce observers were patroling the Palestine coast in planes supplied by the United States to check on the arrival of ships carrying immigrants and supplies.

The Mediator said he had received four C-47 transports and one small Beechcraft plane from the United States.

Count Bernadotte arrived by plane from his headquarters on the Greek island of Rhodes for informal talks. Having arranged a four-week truce in Palestine, he is attempting to find a solution of the long-range issues.

The Mediator conferred for an hour with members of the Arab League's Political Committee. He declined to comment on the meeting.

The Egyptian Government said it had given him a note alleging further violations of the Egyptian front in Palestine. The note warned that if the Egyptian and other governments did not receive confirmation that the front line would be restored to what it was at the time the truce became effective the Arabs would restore the positions by force.

The Holy Land remained quiet on the fifth day of the truce. Count Bernadotte said that as far as he knew there was no fighting. He added that he knew of no truce violation that had not been straightened out. It was natural, after the long fighting between the Arabs and Israel, that some incidents should occur, the count said, but none has made it impossible to continue the truce.

He disclosed that he had sent a report to the United Nations Security Council about complaints received during the first forty-eight hours of the truce. He added, "I do not blame one side or the other."

Jerusalem Supplies Examined

All supplies sent into Jerusalem are under inspection and control, Count Bernadotte declared. Asked what rations of food, water and electricity would be permitted the 90,000 Jews in Jerusalem, he said that this would be fixed by the United Nations Truce Commission there in cooperation with Israel and the Arabs.

The mediator has made up a timetable for peace negotiations, but he explained that he could not disclose the schedule before he talked with both sides. He said he did not know whether he wanted Israel and the Arabs to negotiate at the same table.

Delegates and army chiefs of the Arab countries met here. Abdul Rahman Azzam Pasha, Secretary General of the Arab League, said the Arab leaders had met for an "exploratory discussion" of the Palestine problem.
