EGYPT ASKS REMOVAL OF TROOPS FROM LIBYA

Special to THE NEW YORK TIMES.

PARIS, Jan. 25—Egypt complained today against United States establishment of Air Force facilities in Libya through the influence of military occupation and introduced a resolution by which the United Nations Assembly would ask withdrawal of all foreign troops from the new state within six months.

The Egyptian delegation, which has been raising issues in the United Nations ever since the start of the British-Egyptian clashes at Suez, charged in the Special Political Committee that the structure of the new Libyan Government bore the stamp of "outworn imperialism."

The Egyptian resolution was basically a modified version of a Soviet resolution on troop withdrawal presented to the committee Wednesday. Even delegations usually friendly to Egypt's point of view, such as India and Burma, indicated they would not support it.

Delegates of the United States, Burma, India and others argued that the treaty granting the use of bases was subject to future ratification by the Libyan Government.

Another resolution before the committee, sponsored by the United States and eleven other nations, would hail the new Libyan Government, ask the United Nations to give it technical aid and recommend its admission to the United Nations. The Soviet Union proposed today deletion of the latter provision on the ground that it would infringe on the right of the Security Council to pass on new members.
